## Call History

The Call History page shows a log of all your extensions calls. It also provides tools to filter and export data.

The left side uses color-coded icons to represent call status:

- Green = outbound calls
- Blue = inbound received calls
- Red = missed calls

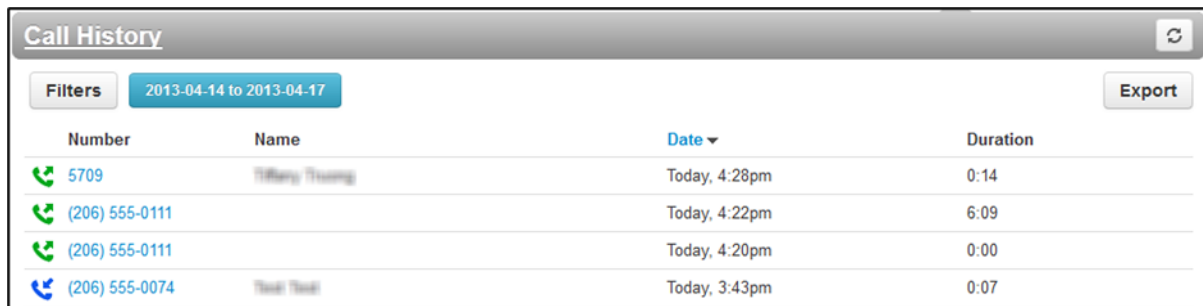

Moving your screen pointer over an icon displays a tooltip with the call status.

You can click a number in the **Number** column dial back the number. Clicking the Refresh button updates the information shown on the page.

To display the Call History page, click the **Call History** icon at the top of the page:

The following figure shows an example of the Call History page.
